¿Privacidad?

- "Pero si yo no tengo nada que esconder"

- "Mi vida no es tan interesante"

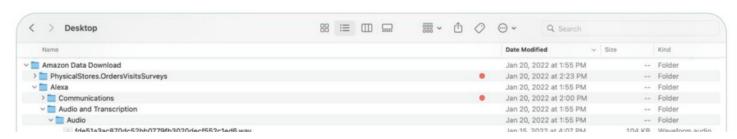

I downloaded all the data Amazon has on me, and honestly the creepiest thing about it is that they sent me the *actual audio files* of every time I spoke* to Amazon Alexa

*years ago when I was young and foolish about surveillance

Traducido del inglés al Google

Descargué todos los datos que Amazon tiene sobre mí y, sinceramente, lo más espeluznante es que me enviaron los *archivos de audio reales* de cada vez que hablé* a Amazon Alexa.

*hace años cuando era joven y tonto acerca de la vigilancia

Edward Snowden

"La privacidad no trata de tener algo que esconder, si no de tener el derecho a controlar lo que otros saben de ti"

Genbeta

La privacidad es un derecho fundamental. Y también uno de nuestros principales valores. Por eso diseñamos nuestros productos y servicios para protegerla. Ese es el tipo de innovación en el que creemos.

CSAM detection

Another important concern is the spread of Child Sexual Abuse Material (CSAM) online. CSAM refers to content that depicts sexually explicit activities involving a child.

To help address this, new technology in iOS and iPadOS* will allow Apple to detect known CSAM images stored in iCloud Photos. This will enable Apple to report these instances to the National Center for Missing and Exploited Children (NCMEC). NCMEC acts as a comprehensive reporting center for CSAM and works in collaboration with law enforcement agencies across the United States.

Edward Snowden

"Argumentar que no te importa el derecho a la privacidad porque no tienes nada que esconder es lo mismo que decir que no necesitas el derecho a la libre expresión porque no tienes nada que decir"

Tus llamadas y chats son privados

El cifrado de extremo a extremo permite que tus mensajes y llamadas personales sean solo para ti y las personas con quienes decidas compartirlos, ni siquiera WhatsApp puede leerlos o escucharlos. Este cifrado se aplica a lo siguiente:
